# About Building Competitive Rating API

Competitive Ratings data helps you to better understand the competitive landscape and more effectively price services. Options include.

## Building Competitive Rating API

### Get Competitive Rating By Address or Unique Key

Issue this call to retrieve the competitive rating for a location.

Competitive Ratings data helps you to better understand the competitive landscape and more effectively price services. Options include:

- **Green** – There is no other competitive provider at this location other than the customer’s own network, the LEC or the cableco.
- **Yellow** – A single competitive provider is present at this location.
- **Red** – Two or more competitor providers are present, in addition to the LEC or cablco at this location.

#### Requirements and Special Considerations

Company Id is a required parameter only when calling the API using buildingId; otherwise, it is optional.

#### Request URL

`https://api.connected2fiber.com/v1/competitive-rating/[?buildingId] [&companyId] [&address]`

Request parameters	Characteristic	Description/Requirements
buildingId (optional)	string	Building Identifier.
companyId	number	Company Identifier (required when using the optional buildingId to call the API; otherwise, optional.)
address (optional)	string	The full address of the location; street, city, state, zip.

Request headers	Characteristic	Description/Requirements
Ocp-Apim-Subscription-Key	string	The subscription key that provides access to this API, which can be found in your Profile.

### Success Response Example

```
{  
  "rating": "Yellow"  
}
```

### Response Attributes and Data Types

Response Attribute	Attribute Description	Data Type
rating (Green, Yellow, Red)	<p>Competitive Ratings data helps you to better understand the competitive landscape and more effectively price services. Options include:</p> <p><b>Green</b> – There is no other competitive provider at this location other than the customer’s own network, the LEC or the cableco.</p> <p><b>Yellow</b> – A single competitive provider is present at this location.</p> <p><b>Red</b> – Two or more competitor providers are present, in addition to the LEC or cableco at this location.</p>	string

### Error Response Example

```
{  
  "statusCode": 417, "message": null  
}
```

# Revision History

Revision	Date	Description
00	January 20, 2023	The information in this guide was extracted from the original “Connected World Intelligence API Reference Guide” to act as a standalone reference guide going forward.
01	September 25, 2023	New publication of the document with minor editorial updates.
